
1. Identification of the Product & the Company.

Product Names: Stylus Kwikseal Neoprene Rubber Foam Tape 6100

Supplier: Stylus Tapes International
Address: 111-121 Warren Rd, Smithfield
PO Box 7124
Wetherill Park NSW 2164

Phone: 02 9632 9400 Fax: 02 9632 9433

2. Composition/Information On Ingredients

Hazardous Substances: None.

The product is made up of expanded Neoprene rubber foam coated with a pressure sensitive adhesives consisting of acrylic resins and laid on a paper liner & self wound onto cardboard cores.

3. Hazard Identification

This product does not present any particular hazard provided it is handled in accordance with good industrial hygiene and safety practices and normal expected conditions of use. Following our current state of knowledge this products is not classified as a hazardous substance. No health effects are expected when eye contact or inhalation occurs.

4. First Aid Measures

Inhalation: Not applicable under normal conditions of use.

Skin Contact: Not specifically applicable but avoid prolonged contact with the adhesive. Product will adhere temporarily to skin & may cause slight reddening on removal as per self adhesive skin plaster. Discontinue use if an allergic reaction occurs.

Eye Contact: Not specifically applicable.

Ingestion: Not specifically applicable.

5. Fire Fighting Measures

Suitable Extinguishing Media: Water, Dry chemical foam & CO2 Media are appropriate

Unsuitable Extinguishing Media: Not known.

Special Exposure Hazards: Materials may contain vapours CO, CO2, & some other vapours as combustible decomposition occurs.

Protection of Firefighters: Wear self contained breathing apparatus & protective clothing to prevent contact with skin & eyes.

6. Accidental Release Measures

Personal Protection: Not applicable under normal conditions of use.

Environmental Protection: Do not present any particular risk to the environment.

Methods for Clean-up: Not applicable under normal conditions of use.

7. Handling & Storage

Handling: Do not require any specific handling procedures. Tapes are not formulated for medical, chiropody, or similar purpose & should not be used as medical plasters, bandages or hand protection.

Storage: Specific technical measures not required. Recommend products are stored in closed cartons away from direct heat or light sources at 23°C, 50%RH.

Packing: Come packed in recyclable and reusable packaging.

8. Exposure Controls/Personal Protection

Technical Measures: Not required provided products are used in accordance with good hygiene & safety practices.

Personal Protection: Not specifically applicable when products used under normal conditions.

9. Physical & Chemical Properties

Physical Appearance: Solid
Form: Coloured Foam coated with adhesive wound onto cardboard cores in rolls
Odour: Slight odour of Carbon Mnoxide
Boiling Point: Not applicable
Melting Point: Not applicable

Flash Point:	300°C (ASTM D-1929)
Vapour Pressure:	Not applicable
Explosive properties:	Not applicable
Oxidising Properties:	Not applicable
pH:	Not applicable
Specific Gravity:	0.6 to 0.85 (H ₂ O =1)
Solubility in water:	Not soluble
Flammability;	Will burn if ignited.

10. Stability & Reactivity

Conditions to avoid: The products are stable at room temperature & normal handling conditions.

Hazardous Decomposition Products On combustion toxic gases may be released as oxides of carbon (CO & CO₂), acrolein & some aldehydes

11. Toxicological Information

Local Effects: Not applicable given the products physical states.

Information General: From our experience & according to our knowledge this product does not have any toxic effects under normal handling conditions.

12. Ecological Information

None known

13. Disposal Considerations

Waste from Residues: For non recycled products dispose of in accordance with local regulations. They can be disposed of as a non hazardous industrial waste or incinerated at a licensed site.

Waste from Packaging: Depending on local possibilities either recycle, reuse or incinerate the cardboard

Note: Users should always check local regulations regarding disposal.

14. Transport Information

To the best of our knowledge at the time of creation of this document the products are not subject to any national/international regulations for transport by rail/road/sea/air.

15. Regulation Information

Labelling: No mandatory labelling is required. Products are not classified as dangerous/hazardous. It is recommended that the customer refers to all applicable & relevant local/national/international regulations, provisions & legislation

16. Other Information

The safety data sheet compliments but does not replace, the Technical Data Sheet indicating Intended uses for the product but is not considered to be exhaustive. For specialist application such as medicine, surgery and the food industry users should contact the manufacturer for further information.

The information given in this Safety Data Sheet is based on our knowledge of the product at the time of publication and is given in good faith. The attention of the user is drawn to the possible risks incurred by using the product for any other purpose than that for which it is intended. It is solely the responsibility of the user to take all the precautions in handling the product. We cannot guarantee that the risks referred to above are the only risks present. The final choice of the application of a product is thus the sole responsibility of the user.
